Shared prerequisites connect the learning paths

Shared lesson	Core	Small molecules	Targets and cells	Biologics	Structure and physics	Agents and feedback
Listed lessons in route	25	29	16	17	15	14
5 Evidence claim boundaries	⬚	●	●	●	●	●
3 Therapeutic decision framing	⬚	●	●	●		
3 Biological representations	⬚		●	●	●	
2 Identity lineage and reuse	⬚			●	●	
1 Docking and free energy	⬚			●		
2 Model table construction	⬚	●				●
2 Baseline fitting and validation	⬚	●				●
1 Metrics and uncertainty		●				
1 Regression and classification errors	⬚				●	
1 Uncertainty to decisions						●

● Prerequisite ⬚ Core inclusion **10 lessons · 21 prerequisite relations**

Core inclusion is a separate relation. The core route lists no prerequisites.

Conceptual illustrations; native labels and relationships.
